Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Delaware is a very small state with an even smaller percentage of pharmacies that will specially compound a hormone like progesterone - Naturally - With a global economy + free market system, it should make no difference to the government the number of prescriptions that are compounded across state lines. This would severely limit my ability to obtain this wonderful hormone in its natural form; compounding has greatly enhanced the quality of my life, as I approach menopause. Please do not take away, or limit in any way, my compounding pharmacy.
